

Course Exercise - Reference Files

JavaScript Essentials: From Zero to Interactive

Duration: 6 weeks - Instructor: Sarah Mitchell

Your exercise for this week

1. Write a function that counts the words in a sentence.
2. Practice array methods: map, filter and reduce on sample data.
3. Select an element and change its text from the console.
4. Attach a click handler that toggles a CSS class.
5. Bring one question about something that confused you.

Complete the steps in order - each one builds on the previous. Bring your questions to the next session.
